

When You Say My Name

Jessie James Decker

Monday a long day
Startin' off the wrong way
Runnin' on empty
Faith and black coffee

You left early
Gotta get the bills paid
I miss your face baby
I just can't wait

'Till we're all alone
And this mad world fades away

When you say my name
Everything comes alive
Take the darkest room
And you turn on the lights

When you touch my hand
You're telling me a secret
Only we can understand

When you say my name
Say my name
Say my name
When you say my name
Say my name
Say my name

Hard times heartache
Got the strength that love makes
Somehow someway
Gonna find it someday

No matter what life brings
I know it's gonna be okay

When you say my name
Everything comes alive
Take the darkest room
And you turn on the lights

When you touch my hand
You're telling me a secret
Only we can understand
When you say my name
Say my name
Say my name
When you say my name
Say my name
Say my name

It's such a sweet kiss
My name on your lips
Oh
I can't resist it
I can't resist it

No no no

Mmm yeah

When you say my name

Everything comes alive

Take the darkest room

And you turn on the lights

When you touch my hand

You're telling me a secret

Only we can understand

Only we can understand

Say my name

Say my name

When you say my name

Say my name

Say my name
