

# Midnight

Jessie Ware

You're special  
Yours truly  
You pull me deep into my deepest desire  
Can you meet me in the midnight?  
Call me, hit me, 'cause I know you  
You know me  
When I'm fading  
You're the only one who inspires  
Can you meet me in the midnight?

Maybe I love you  
Maybe I want to  
Maybe I need you  
Oh, yeah  
Maybe I love you  
Don't let me fall through  
Now that I need you  
I feel this magic is never gonna fade  
I ain't got nothing to say

But you're precious  
I'm scheming  
Keep dreaming  
'Bout a world where we are an item  
Can I miss you in the daylight?  
Whenever you're around, I'm lifted  
So lifted, oh yeah  
And this moment is made for you and I to go higher  
Higher, higher, higher  
Can you meet me in the midnight?

Maybe I love you  
Maybe I want to  
Maybe I need you  
Oh, yeah  
Maybe I love you  
Don't let me fall through  
Now that I need you  
I feel this magic is never gonna fade  
I ain't got nothing to say  
Maybe I love you  
Maybe I want to  
Maybe I need you  
Oh, yeah  
Don't let me fall through  
Now that I need you  
I feel this magic is never gonna fade  
I ain't got nothing to say  
Maybe I love you  
Maybe I want to  
Maybe I need you  
Maybe I want you  
Maybe I love you  
Don't let me fall through  
Now that I need you  
Oh yeah  
Maybe I need you
