

# Slow Me Down

Jessie Ware

Maybe I ask a little too much  
I could take all of you, it's still not enough  
Maybe I'm lost, maybe I'm wake  
What if I'm not the one you thought I would be

Running in circles, not running away  
You'll be the ocean and I'll be the wave

Baby you slow me down  
Baby you slow me down  
And I won't let go forever and more  
Baby you slow me down  
You slow me down  
And I'll take it slow  
If you tell me we'll never stop

Maybe I burn a little too bright  
Tryna give you more of everything  
Darling, I would give you anything  
And if I jump a little too high  
Would you tell me please (please), please (please), please

Baby you slow me down  
Baby you slow me down  
And I won't let go forever and more  
Baby you slow me down  
You slow me down  
And I'll take it slow  
If you tell me we'll never stop

Tell me, baby, do I talk too much?  
Still feels like we're only growing up  
Now we're older (older) out of nowhere  
You say it's like I'm never staisfied  
Boy, you can have it all tonight

Baby you slow me down  
Baby you slow me down  
And I won't let go forever and more  
Baby you slow me down  
You slow me down  
And I'll take it slow  
If you tell me we'll never  
Slow me down  
Baby you slow me down  
And I won't let go forever and more  
Baby you slow me down  
You slow me down  
And I'll take it slow  
If you tell me we'll never stop
