

# Something Inside

Jessie Ware

Dreamy haze come blind me  
To take me where the tide lines will find me  
Underneath and in between  
Smiled up you come for me I see you

Offer me something inside  
A place to go, a place to hide  
Offer me something inside  
Offer me something inside  
A place to go, a place to hide  
Offer me something inside

Come along, look down below  
I want to go everywhere you go  
You know the best I catch my breath  
So steal me, take me in I want you

Offer me something inside  
A place to go, a place to hide  
Offer me something inside  
Offer me something inside  
A place to go, a place to hide  
Offer me something inside

Let me run, let me feel like someone  
Let me run, let me feel like someone  
Let me run, let me feel like someone  
Let me run, let me feel like someone  
Let me run, let me feel like someone  
I can see your face I can find you  
Let me run, let me feel like someone  
I can hear my name and I'm on my way  
Let me run, let me feel like someone  
I will see you face, I will find you  
Let me run, let me feel like someone  
I can hear my name and I'm on my way  
Let me run, let me feel like someone  
I will see you face, I will find you  
Let me run, let me feel like someone  
I can hear my name and I'm on my way  
Let me run, let me feel like someone  
I will see you face, I will find you

Offer me something inside  
A place to go, a place to hide  
Offer me something inside  
Offer me something inside  
A place to go, a place to hide  
Offer me something inside
