

# Stay Awake, Wait for Me

Jessie Ware

Quarter to three, thinking of you (thinking of me)  
If I tell you the truth, what would you what would you what would you do?

But it's been a while, hearing your smile  
To tell you the truth, I could use more than a vision of you

'Cause tonight we'll have no need to dream

I'll make you see in a new light  
It only happens when you're here next to me  
Something so sweet like the first time  
And we could lock into the same melody (ooh)  
Stay (ooh) awake (ooh)  
Wait (ooh) for me

And maybe you could stay a little longer 'til the sun goes under

Do you ever wonder if we could be a perfect picture  
Picture this, an endless kiss  
You're hanging on my lips

What does it mean? (I-I-I)  
I try not to think (why-y-y)  
Why, fold into me  
I want to be, want to be caught up in you

I'll make you see in a new light  
It only happens when you're here next to me  
Something so sweet like the first time  
And we could lock into the same melody (ooh)  
Stay (ooh) awake (ooh)  
Wait (ooh) for me

Tonight we've got no need to dream, we've got no need  
Tonight We've got no need to dream  
Tonight we've got no need to dream, we've got no need  
Tonight We've got no need to dream  
Tonight we've got no need to dream, we've got no need  
Tonight We've got no need to dream  
Tonight we've got no need to dream, we've got no need  
Tonight We've got no need to dream
