

# Sweet Talk

Jessie Ware

I thought you knew  
I had to stay away from you  
I thought you heard  
Yeah still you have the power  
You can't be here  
How long do you disappear  
Don't wanna be the last one here

But you give me the sweet talk  
And it works for me  
And it's the sweet words, that pulls me in  
I know I'm the weak one, and I won't say no  
You give me a reason, so I never go

Don't keep me with the kisses  
There's never any doubts when I need  
It's just that you can always make me feel  
Like I am slipping in way too deep  
And let the shadows hope to hide  
Or break the dreaming, dreaming of us  
And if I keep slipping in, just keep up with the talking  
Know that I'm with you, I'm not about to go

But you give me the sweet talk  
And it works for me  
And it's the sweet words that pulls me in  
I know I'm the weak one, and I won't say no  
You give me a reason, so I never go

So many moments we waste  
Too many heartbeats away  
So many moments we waste  
Too many heartbeats away

But you give me the  
But you give me the  
But you give me the  
But you give me the

But you give me the sweet talk  
And it works for me  
And it's the sweet words that pulls me in  
I know I'm the weak one, and I won't say no  
You give me a reason, so I never go

Give me the sweet talk  
And it works for me  
And it's the sweet words that pulls me in  
I know I'm the weak one, and I won't say no  
You give me a reason, so I never go  
Sweet talk  
Give me the sweet talk
