

# Stuck On You

Jessy

At first when you walked by my house  
I never realised  
That you were gonna change my life  
You caught me by surprise  
We talked, we laughed, we played, we stayed  
Together since that time  
And now you've got me flying high  
On cloud number nine

-

I'm so stuck on you  
Every day of my life  
I'm so stuck on you  
From morning till night

-

I can see heaven in your eyes  
You've got me hypnotized  
I walk in circles, I'm so high  
This is paradise  
I dream, I scream, I feel it's real  
This love we have right now  
And I'm convinced with all my heart  
It's gonna last a lifetime

-

I have fallen for your charms  
and I can't wait for more  
This is such a perfect crush, romantic bliss  
It's what I have been dreaming of

-

I'm so stuck on you  
Every day of my life  
I'm so stuck on you  
From morning till night

-

I have fallen for your charms  
and I can't wait for more  
This is such a perfect crush, romantic bliss  
It's what I have been dreaming of

-

I'm so stuck on you  
Every day of my life  
I'm so stuck on you  
From morning till night

-

I'm so stuck on you  
From morning till night...  
I am so stuck on you  
Every day of my life...  
I am so stuck on you  
from morning till night...  
I'm so stuck on you  
Every day of my life...
