

We Will Sing

Jesus Culture

From the ends of the Earth
we hear this song
Glory to the Righteous One

From the ends of the Earth
we hear this song
Glory to the Righteous One

From the ends of the Earth
we hear this song
Glory to the Righteous One

From the ends of the Earth
we hear this song
Glory to the Righteous One

We will sing the song that awakens the dawn
And we will usher in your appearing
It's your face that we crave
It's your presence that we long for
Your Kingdom come

We will sing the song that awakens the dawn
And we will usher in your appearing
It's your face that we crave
It's your presence that we long for
Your Kingdom come

From the ends of the Earth
we hear this song
Glory to the Righteous One

From the ends of the Earth
we hear this song
Glory to the Righteous One

We will sing the song that awakens the dawn
And we will usher in your appearing
It's your face that we crave
It's your presence that we long for
Your Kingdom come

And with your seal upon my heart
It's stronger than the grave
Jealous, ablaze

From the ends of the Earth
we hear this song
Glory to the Righteous One

We will sing the song that awakens the dawn
And we will usher in your appearing
It's your face that we crave
It's your presence that we long for
Your Kingdom come

We will sing the song that awakens the dawn

And we will usher in your appearing
It's your face that we crave
It's your presence that we long for
Your Kingdom come

From the ends of the Earth
we hear this song
Glory to the Righteous One

From the ends of the Earth
we hear this song
Glory to the Righteous One

From the ends of the Earth
we sing this song
Glory to the Righteous One

From the ends of the Earth
