

Get A Good Thing

Jesus Jones

Oh we had some magic and used it all
There's a tinge of regret now
But not what you'd call real sorrow
Escape the [incomprehensible], when straight to the phone

'Cos I'd rather be damned than let this go
And I'd rather be damned 'cos I know

You've gotta get a good thing when you see it
You've gotta get a good thing when you see it

Oh we let our lives slip just for a while
It took all we had but it made you smile too

And I'd rather be damned than let this go
And I'd rather be damned 'cos I know

You've gotta get a good thing when you see it
You've gotta get a good thing when you see it

And I'd rather be damned than let this go
And I'd rather be damned 'cos I know

You've gotta get a good thing when you see it
You've gotta get a good thing when you see it
You've gotta get a good thing when you see it
You've gotta get a good thing when you see it
