

# Idiot Stare

Jesus Jones

I played with the fire  
Stared at the light, screamed at the pain  
Pushed to the center  
Took no advice, waited in vain

I questioned it too  
Thought about me, thought about you  
The corruption between us  
The power and lies, dreams come true

I don't know if I care  
I can't feel, I can't speak, I can't think  
Caught in an idiot stare

I won't let it go  
Hold it to me, it's mine to the end  
A shadow that hugs me  
My black dog, my enemy friend

I don't know if I care  
I can't feel, I can't speak, I can't think  
Caught in an idiot stare

I don't know if I care  
I can't feel, I can't speak, I can't think  
Caught in an idiot stare

I don't know if I care  
I can't feel, I can't speak, I can't think  
Caught in an idiot stare
