```
Around me, through me,
Over me you came you went
There was no harm spent
Was it really worth our while?
```

```
Move me, move me

Move me (if you can't it's not worth a damn)

Move me, move me

Move me (if you can't it's not worth a damn)
```

All the pain is ours to gain
If it's dangerous it's good for us
Let's lose control, let it
Slip away

```
Move me, move me

Move me (if you can't it's not worth a damn)

Move me, move me

Move me (if you can't it's not worth a damn)
```

```
Move me, move me

Move me (if you can't it's not worth a damn)

Move me, move me

Move me (if you can't it's not worth a damn)
```
