

# The Next Big Thing

Jesus Jones

The next big thing  
Life can be so calm  
The next big thing  
So calm without you

I am waiting for the next big thing  
Bring it on quick time to me  
I tap my fingers to the same old thing  
And dream of better things to see

I couldn't tell you what path it comes by  
I couldn't tell you if it's plain to see  
I couldn't tell you if it's gonna change the world  
But I hope to hell it's gona chagne me

I am waiting fo rthe next big thing  
I'm scared of all that's behind me  
All my faith is in the next big thing  
It's where I'll hide what you don't see

I couldn't tell you what clothes it wears  
I couldn't tell yo if it's black or white  
I couldn't tell you if it's gonna change the world  
But any change at all would be alright

Round and round the world we go  
Back and forth in time  
Always looking for the new sensation  
Bigger and better every time

So calm without you, without you, without you, without you
