

Stay With Me

Jesus On Extasy

I'm chasing the shadows
I'm running out of time this time
They say that it's hopeless anyway
You're breathing, you're fighting
And I can't see it in your eyes.
I will dry the tears you hide

So stay with me
I'd dedicate my soul
Do anything
Just to let you know
How I feel
I'm begging you to
Stay with me

Fate's twisted
I'm restless
I'm hanging on this fragile string
The candle's burning on both sides tonight
This bed out of roses
The thorns are cutting up my veins
And I can't face another day

So stay with me
I'd dedicate my soul
Do anything
Just to let you know
How I feel
I'm begging you to
Stay with me
