

# I'm breathing

Jet Black Stare

Riding high on an angel's wings  
And the devil sings inside my head (ohh-oh ohh-oh)  
All alone on a Friday night  
With an empty bottle by my side (ohh-oh ohh-oh)  
And now I'm looking for the reasons why I'm alive  
And now I've finally come to realize

I can't erase  
This feeling I can't escape  
And now I'm lying on the floor  
And I really need to find the answers (ohh-oh ohh-oh)  
Lying on the floor cause I've given every piece of me  
And I'm Breathing

Now the lights are flashing  
And I'm crashing to the other side (ohh-oh ohh-oh)  
Need another time around  
Get me off the ground  
Give me one more try (ohh-oh ohh-oh)  
And now I'm looking for the reasons why I'm alive  
And now I've finally come to realize

I can't erase  
This feeling I can't escape  
And now I'm lying on the floor  
And I really need to find the answers (ohh-oh ohh-oh)  
Lying on the floor cause I've given every piece of me  
And I'm Breathing

And they prayed for  
Can he make it through?  
I'm not leaving... I'm not leaving you

Riding high on an angel's wings  
And the devil sings inside my head (ohh-oh ohh-oh)  
Waking up from a dream I'm in  
And the nurse walks in  
She looks and says (ohh-oh ohh-oh)  
Everything will work out right

I can't erase  
This feeling I can't escape  
And now I'm lying on the floor  
And I really need to find the answers (ohh-oh ohh-oh)  
Lying on the floor Cause I've given every piece of me  
And I'm Breathing

I can't erase  
This feeling I can't escape  
And now I'm lying on the floor  
And I really need to find the answers (ohh-oh ohh-oh)  
Lying on the floor cause I've given every piece of me  
AND I'M BREATHING
