Running down the alleyway
Stepping on the hearsay
No stopping what you can't stop
They tell me
The push comes to shove
Yeah you don't need a watch to know
What time it is

Don't need a plan
We can fall into it
Just ah
Like a domino
Here we go

We can roll Rock and soul You know what time it is now start the show

Build a fire Watch it grow
You know what time it is now start the show

Driving on the interstate
Licking off a silver plate
Swinging like a heavy-weight
I am free now we can roll with the show
Yeah you live fast you die alone
Now break the mold

Don't need a plan
We can fall into it
Just ah
Like a domino
Here we go

We can roll Rock and soul You know what time it is now start the show

Build a fire Watch it grow One, two ,three now baby start the show

We can roll
Rock and soul
You know what time it is now start the show

Ladies and gentlemen we're ready to go You know what time it is Start the show
