

# That's All Lies

Jet

My my, at it again  
Put your finger in the handgun  
I fall down and I try to get up  
But you smack me like a pinball

Soul...where did it go?

C-C-C climb to the top of the mountain but your still alone  
K-K-K kicken' down your front door  
But your never home

That's all lies  
(I wanna see, yes I wanna see)  
That's all lies  
(but everybody close the door on me)  
That's all lies  
(I think I'll download a brand new head)  
That's all lies  
(I'm already dead)  
And I think I've seen the light,  
Yeah I, I'm gonna be here a long time

My my, at it again  
But you said you don't need it  
My my, pie in the sky  
Ain't ever gonna hit me

Soul...where did it go?

C-C-C climb to the top of the mountain break ya backbone  
K-K-K kicken' at your front door  
But your never home

That's all lies  
(I wanna see, yes I wanna see)  
That's all lies  
(but everybody close the door on me)  
That's all lies  
(I think I'll download a brand new head)  
That's all lies  
(I'm already dead)  
And I think I've seen the light,  
Yeah I think I see the light, I'll be here for a long time, Yea
