

This Night Is Yours

Jet

I don't know what you been told
some people got no soul
I think I worked ya out
a long time ago

I don't know what you been told
some people got no soul
I think I worked ya out
a long time ago

before my sadness takes me for a walk
you say this night is yours

I don't know what you been told
people they ain't got no soul
I think I worked ya out
a long time ago

before my sadness takes me for a walk
you said this night is yours
