

## North Sea Oil

Jethro Tull

Black and viscous --- bound to cure blue lethargy  
Sugar-plum petroleum for energy  
Tightrope-balanced payments need a small reprieve  
Oh, please believe we want to be  
in North Sea Oil  
New-found wealth sits on the shelf of yesterday  
Hot-air balloon --- inflation soon will make you pay  
Riggers rig and diggers dig their shallow grave  
But we'll be saved and what we crave  
is North Sea Oil  
Prices boom in Aberdeen and London Town  
Ten more years to lay the fears, erase the frown  
before we are all nuclear --- the better way!  
Oh, let us pray: we want to stay  
in North Sea Oil
