

## Blue Dream

Jhené Aiko

We were coastin' on the coast when you opened my eyes  
Made me notice where the ocean is holding the sky, right  
I was blinded, your smile shining behind those green eyes  
The horizon so enticing please say you'll be mine

Don't wake me up cause I'm in love with all that you are  
You make me see the truth in things, I think that you are  
The remedy for everything it seems that you are  
The truth itself because nothing else can take me so far

My afternoon dream when  
The world is speedin'  
I am still sleepin'  
In my blue dream and  
I know the meaning  
For all the seasons  
You are the reason  
My love

My mind is open  
So wide since you came inside  
I feel so alive  
Without you life just passes by  
Passes by, passes by

Don't wake me up cause I'm in love with all that you are  
You make me see the truth in things, I think that you are  
The remedy for everything it seems that you are  
The truth itself because nothing else can take me so far

My afternoon dream when  
The world is sleeping  
I am still thinking  
Of my blue dream  
It's, bliss...

Don't wake me up cause I'm in love with all that you are  
You make me see the truth in things, I think that you are  
The remedy for everything it seems that you are  
The truth itself because nothing else can take me so far

My afternoon dream when  
The world is sleeping  
I am still thinking  
Of my blue dream  
It's, bliss...
