

# To Love And Die

Jhené Aiko

Tooted and booted, I've been hit by cupid  
I'm being recruited  
I'm ready for more  
I'm ready for war  
Hold your position  
Load up ammunition  
I won't fail this mission  
Cause baby I'm yours, ohh

Cause where I'm from  
We live by the love  
Die by the love  
We live for the love  
Die for the love  
Yeah I live for your love  
Die for your love  
Love

Now many men  
Many, many, many, many men  
Wish death upon me  
Have mercy on me  
Cause I'm just a prisoner of your army of one  
But I'll fight till the death or until your heart is won

Cause where I'm from  
We live for the love  
Die for the love  
Yeah  
We live by the love  
Die by the love  
Yeah  
I live for your love  
Die for your love  
Love

Which side  
This side  
You should switch sides  
I'm not acting like a bitch side by the way  
You need to switch sides right away, oh  
Love side, hate side  
Never in between  
That's what we stand for  
Y'all fall for anything  
West side, west side, by the way  
Live forever for love or you can die today

Cause where I'm from  
We live by the love  
Die by the love  
Oh yeah  
Yeah  
We live for the love  
Die for the love  
Yeah I live for your love  
Die for your love

Love
