

Wait No More

Jhené Aiko

So here we are again, boy this always happens
It ain't like we scared, but we know what happens
When things move too fast but should be moving slow
And makes me want you more...

Oh boy, I've been wanting this more than you know boy.
It's killin' me but we should take it slow boy
It'd be so much better if we wait til' we can't wait no more, n
o more
Wait no more..

Boy the love is there, so there's no need for rushing
You can come right here, but don't you start that touching
It'd be so much better if we'd let this build up, it's worth th
e wait for something bigger..

Oh boy, I've been wanting this more than you know, boy.
It's killin' me but we should take it slow, boy
It'd be so much better if we wait til' we can't wait no more, n
o more
Wait no more..

Baby, yeah..

Baby we've got time, I'll be worth the wait
We've got the ingredients, just let em' marinate
When the time is right, promise you it'll be a night
That you won't forget the rest of your life
