

# Brand New Love Affair

Jigsaw

Yes, it's like a brand new love affair  
It's still like a brand new love affair  
Cause we're still holding hands  
And we're still making plans, oh  
I still get butterflies  
Each time I look in your eyes

It's still like a brand new love affair  
No one watching us would be aware  
That we don't share a brand new  
Love affair, love affair, love affair

I saw you, I saw you last night  
It was like the time when we first met  
I held you, I held you last night  
Like I did the night we won't forget

The first time I held you near  
Felt my troubles disappear  
That first day of our brand new love affair

It's like a brand new love affair  
It's still like a brand new love affair  
Cause we're still holding hands  
And we're still making plans, oh  
I still get butterflies  
Each time I look in your eyes

It's still like a brand new love affair  
No one watching us would be aware  
We don't share a brand new  
Love affair, love affair, love affair

I saw you, I saw you last night  
It was like the time when we first met  
I held you, I held you so tight  
Like I did the night we won't forget

The first time I held you near  
Felt my troubles disappear  
That first day of our brand new love affair

It's like a brand new love affair  
It's still like a brand new love affair  
Cause we're still holding hands  
And we're still making plans, oh  
I still get butterflies  
Each time I look into your eyes

It's still like a brand new love affair  
No one watching us would be aware  
We don't share a brand new love affair

It's like a brand new love affair  
It's still like a brand new love affair  
Cause we're still holding hands  
And we're still making plans, oh

I still get butterflies  
Each time I look in your eyes

It's still like a brand new love affair  
No one watching us would be aware  
That we don't share a brand new  
Love affair, love affair, love affair

(Fade out)
