

# High And Dry

Jigsaw

I started out a friend  
Then you brought about the end (Do or die)  
'Cause you had to make me love you  
Do or die

You caught me with your line  
And I tried to make you mine (High and dry)  
Now I'm lonely, lost and stranded  
High and dry

We were happy, why do you have to tell a lie?  
Said you loved me, then you left me high and dry  
You take me, break me  
Then you make me cry  
Why do you have to leave me high and dry?

We were happy, why do you have to tell a lie?  
Said you loved me, then you left me high and dry  
You take me, break me  
Then you make me cry  
Why do you have to leave me high and dry?

I thought love was your aim  
But you treat me like a game  
And I ended up a loser by and by  
Why did you talk me 'round  
'Til love's sweet caress I found (High and dry)  
Only to end up stranded high and dry

We were happy, why do you have to tell a lie?  
Said you loved me, then you left me high and dry  
You take me, break me  
Then you make me cry  
Why do you have to leave me high and dry?

We were happy, why do you have to tell a lie?  
Said you loved me, then you left me high and dry  
You take me, break me  
Then you make me cry  
Why do you have to leave me high and dry?

We were happy, why do you have to tell a lie?  
Said you loved me, then you left me high and dry  
You take me, break me  
Then you make me cry  
Why do you have to leave me high and dry?
