

Only When I'm Lonely

Jigsaw

And when I think about the way we were
I sometimes find I'm feeling lonely
And when the teardrops make my vision blur
That's when I know I'm feeling lonely
Your face, your smile
Is never far behind me
One look, one glance
Can sometimes still remind me

I guess it's only when I'm lonely, girl
I think about you
It happens only when I'm lonely, girl
I guess it's only when I'm lonely, girl
I'm lost without you
The only trouble is I'm lonely, girl
All of the time

Last night I lay awake and dreamed of you
I couldn't sleep for feeling lonely
And if there's nothing else I'd rather do
Tonight I'll stay up feeling lonely
Your face, your smile
Is never far behind me
One look, one glance
Can sometimes still remind me

I guess it's only when I'm lonely, girl
I'm lost without you
The only trouble is I'm lonely, girl
All of the time

I guess it's only when I'm lonely, girl
I think about you
It happens only when I'm lonely, girl
I guess it's only when I'm lonely, girl
I'm lost without you
The only trouble is I'm lonely, girl
