

## That's What It's All About

Jigsaw

I was only make-believing  
Counting rainbows then one day the world crashed in  
I was only half-believing  
Didn't know the time or when or where I'd been

Then I started living  
Felt the whole world start spinning

Life is love and love is living  
Take the time to take what's given  
Please don't shut it out  
That's what it's all about

Now, life is love and love is living  
Take the time to take what's given  
Please don't shut it out  
That's what it's all about

I was only playing people  
Acting out the game in costumes fantasy  
I was only understudy  
For the man who really played the part of me

Then I started living  
Felt the whole world start spinning

Life is love and love is living  
Take the time to take what's given  
Please don't shut it out  
That's what it's all about

Life is love and love is living  
Take the time to take what's given  
Please don't shut it out  
That's what it's all about
