Waiting for you to call me Waiting for you to tell me you care Waiting for you to call me anywhere

I don't care how you show it Baby, make me know it

Don't stop (there's still time)
Put it in a letter
Call me up
That is even better
Precious moments slip away
We could make love today
While you wait

Waiting for me to call you
Waiting for me while time's getting late
Waiting for me to call you
For a date

While the world is spinning Make a move and give in

Don't stop (there's still time)
Put it in a letter
Call me up
That is even better
Precious moments slip away
We could make love today
While you wait
