

One Is the Magic

Jill Scott

No hay nadie mas que yo,
There is nothing more than you
Uno es el numero magico
En vida y en muerte,
One is the magick number
Uno es todo
One is everything
Comprende
Understand?
If I multiply 2 times 2 is it really, really 4 me
La
La
La
La
La
La
And if I add 5 to get 9 minus 8 that just leaves me
Me
Me
Me
Me
Me
Me
Me
Me
So many times I define my pride
Through somebody else's eyes (La da da, la da)
Then I looked inside and found my own stride,
I found the lasting love for me
If I'm searching for my spirituality
Passionately I must begin with me

There's just me,
One is the magic number
One is the magic number

If I add myself unto myself multiplied times
You and yours and you again
There's just me
And if I divide 8 billion, 48 trillion, 98 zillion
There is, there is just me
If I subtract one plus me to the 5th degree,
Use any theorem
There's just me

There's just me
One is the magic number
One is the magic number

Me, me, me, me
