

Prepared

Jill Scott

I been reading my old journals
Checking to see where my head has been
And I been apologizing to some people
Some bridges I needed to mend
And I been eating more greens
Getting my body alkaline
I'm gonna be super fine
And I been letting
Been letting some old ideas go
I'm making room for my life to grow
I just wanna be prepared

I just wanna be, just wanna be prepared
Getting myself ready for what's coming for me,
I am,
I just wanna be, just wanna be prepared
Prepared

Hear me now
I been getting recipes off the internet
Most times they be bland
I realized they're only good when I put
My lil spices all up in the rices
I been
You know I been enjoying people who love each other
Husband and wife
Sister and brother
Father and mother
I let the queen inside
I let her shine
I been listening for God more
I been doing my chores

I just wanna be, I just wanna be prepared
I've been getting myself together for what's coming to me
I just wanna be, I just wanna be prepared
Prepared

For when I see Him at the end of life
That true heart and that real smile
Intentions pure
A love that will endure

I just wanna be prepared
I am gonna get myself together for what's coming to me, coming to me
I just wanna be prepared
I just wanna be prepared
