

# Say Thank You

Jill Scott

I used to be stuck  
I used to be stuck  
How 'bout you?  
Inside a lie  
That you know ain't near  
Near the absolute truth  
Feel it all in your membranes  
And deep in your tissue  
And you keep  
You keep ignoring the signs  
Listening to it happening to you again songs  
And put your alarm on  
Sleep  
Inviting new dumb shit  
And more loss of peacefulness  
Anybody  
Everybody can use a little help sometimes  
C'mon you know things ain't moving right  
Ask for correction  
Ask for direction  
Ask for protection  
Since you want to feel like you're you  
Inside

Say thank you  
Yeah  
Say thank you  
Yeah

Cause you know your request is filled  
You will see  
So act accordingly  
Live like you believe  
And say thank you

Open  
Close  
Kneel  
Stand  
Hands  
In the air  
Head down  
Knees on ground  
And a silent whisper  
Out loud

Somebody say thank you  
Hey!  
You hear that?  
Yeah!  
Hey!  
Thank you  
Thank you!  
I wish you would  
Just say  
Thank you  
Thank you

It's the only thing

Thank you
