## **Thank Misery**

If I hadn?t always been depressed I'd climbed that golden ladder of success And if I hadn?t been so blue Thank misery for bringing me to you

If only I stayed in my home town Married my old sweetheart, settled down Watched my belly swell a time or two Thank misery for bringing me to you

Thank misery, the years I?ve lost The drinks I?ve served, the friends I?ve tossed Thank misery, she?s had enough of me

If I could go back in a time machine I wouldn?t buy a ticket, well maybe But I?m so happy now, I swear it?s true Thank misery for bringing me to you

But I?m so happy now, I swear it?s true Thank misery for bringing me God bless the pain that set me free Thank misery for bringing me to you
