

# Flood The Ocean

Jillette Johnson

Come, come, come along  
Everybody hit their party drum  
And sit next to your friends  
Namaste and amen

Roll off of your tongue  
Whatever which way you get it done  
Good grace, god bless  
Love will fill the emptiness

Aren't we just  
The luckiest kids east of the river  
Plucked out of nowhere, brought together by  
A greater motion  
C'mon, c'mon, let's paint the town redder  
Tie our shoelaces together  
And unhinge the dam  
And let flood the ocean

Fishbowl, rabbit hole  
Hunkering down to hide the  
Romance of a hopeless heart  
But you can't help who you really are

Learned it from your mum and dad  
They try to cover you up with elbow pads  
But you still catch in electric wire  
Whatever it is that started the fire

Aren't we just  
The luckiest kids east of the river  
Plucked out of nowhere, brought together by  
A greater motion  
C'mon, c'mon, let's paint the town redder  
Tie our shoelaces together  
And unhinge the dam  
And let flood the ocean

Come, come, come along  
Everybody hit their party drum  
And sit next to your friends  
Namaste and amen

Aren't we just  
The luckiest kids east of the river  
Plucked out of nowhere, brought together by  
A greater motion  
C'mon, c'mon, let's paint the town redder  
Tie our shoelaces together  
And let flood the ocean

I gotta know, do you remember  
First thing you said to me was the weather  
Is breaking open  
You are the sun, you'll make it better  
Let's tie our shoelaces together and  
Unhinge the dam

And let flood the ocean
