

Keep You Here With Me

Jillian Edwards

I cannot find the words on my tongue
That are half as sweet as the melody sung by
Your voice, I couldn't ever
We sit ocean side we fly to the moon
I catch a rhyme a tail end of a tune
But it won't do
It couldn't ever

Days go by and I can't seem to find
A way to tell you
I'm thinking of a way
To keep you here with me
Days go by and I can't seem to find
A way to tell you
I'm thinking of a way
To keep you here with me

You sing me to sleep with that look in your eyes
Holdin' your hand like a sweet lullaby
I'm trying to hold together

Days go by and I can't seem to find
A way to tell you
I'm thinking of a way to keep you
Here with me
Days go by and I can't seem to find
A way to tell you
I'm thinking of a way to keep you here with me

I'm feeling above the weather
I'm thinking we'll stay together

Days go by and I can't seem to find
A way to tell you
I'm thinking of a way
To keep you here with me
Days go by and I can't seem to find
A way to tell you
I'm thinking of a way
To keep you here
Thinking of a way to keep you here
Thinking of a way to keep you here
With me
