

Run Fast

Jillian Edwards

Hands tied, eyes wide
Looking for thinner air
Quick breath, first step
Heart needs a heavy dose
Of some kind of hope to hush up your fears
Some kind of sign to meet you here
With your hands tied and eyes wide
It's gotta be coming soon

Run fast and wait for it
Run fast and wait for it
I know good will follow
Keep your head above the trouble
Just run fast and wait for it

The sun will find it's way out
And disappear the shadows
Light cracks from under the door
You didn't know it was there before
But it was there all along
Under the wrong
You assumed it forgot you, left you alone
But the sun will find it's way out
It's gotta be coming soon

Run fast and wait for it
Run fast and wait for it
I know good will follow
Keep your head above the trouble just
Run fast and wait for it

Weight upon your shoulders
Weight upon your back
Let it go oh oh
Weight upon your shoulders
Weight upon your back
Let it go oh oh
Weight upon your shoulders
Weight upon your back
Let it go oh oh
Weight upon your shoulders
Weight upon your back
Let it go oh oh

Run fast and wait for it
Run fast and wait for it
I know good will follow
Keep your head above the trouble just
Run fast and wait for it
