

My Angel

Jim Brickman

Good night to this day
Climb into bed
Good night to these questions that fill up your head
Now you can fly on the wings of the night
By the light of the moon
Just close your eyes.

Sweet dreams my angel
Sleep tight my child
Sail through the blue,
That's where wishes come true
I'll meet you on dawn's morning light
My angel, good night

Can't wait 'til you wake up
I can't believe how you've grown
And when you get scared, you won't be alone.
See, my love goes with you, wherever you are
And there may be distance
But we're never apart.

Sleep tight
Close your eyes
And tomorrow I'll be there by your side

Sweet dreams my angel
Sleep tight my child
Sail through the blue,
That's where wishes come true
I'll meet you on dawn's morning light
My angel
