

Starbright

Jim Brickman

Starlight, starbright
Wishing on the first star of the night
I wish I may
I wish I might
Make all your dreams
Come true tonight

As your drift
Off to sleep
Angels guard the memories you keep
Now close your eyes
And dream away
And you'll awaken on Christmas day

Starlight, starbright
Shining on my little one tonight
I wish I may
I wish I might
Make all your dreams
Come true for you tonight
