## **More Than That Tomorrow**

Jim Croce

Hey love don't be afraid to stay until tomorrow Lover's dawn is waiting just this side of day If you thought I loved you yesterday I'll love you more than that tomorrow

Hey love don't be afraid to hear the songs of morning Birds will sing them as they're calling up the day If I sang to you yesterday I'll sing more than that tomorrow

If it should happen that you come to me In the night we share our hearts Whatever it is that you done to me Between you and me, can't be undone...

If I should understand just why I need you by me Then I would know the reasons for the songs of morning 'Cause if I wanted you yesterday And if in the night we shared our hearts Whatever it is that you done to me Between you and me, can't be undone...

Hey love don't be afraid to stay until tomorrow Lover's dawn is waiting just this side of day If you thought I loved you yesterday I'll love you more than that tomorrow

If you thought I loved you yesterday I'll love you more than that tomorrow
