

# Heaven Says Hello

Jim Ed Brown

Heaven says hello every morning when the sun says hi I've come  
to spend the day  
Heaven says hello with the songbirds and the little flowers that  
nod along my way  
And when the day is through and I hurry home to you  
As the twilight steals across the golden skies  
Heaven says hello when you kiss me and I look into the blue of  
your eyes

(Heaven says hello every morning) when the sun says hi I've come  
to spend the day  
(Heaven says hello with the songbirds) and the little flowers that  
nod along my way  
And when the day is through  
And I look into the blue of your eyes
