

## Here's To Forever

Jim Ed Brown

Here's to your future my darling your health and your happiness  
too  
And here's to the ends of my world you said forever well here's  
to forever and you  
Drink up dear the sky just started falling here's to the color  
so blue  
And here's to the ends of my world you said forever here's to f  
orever and you  
See the stars on the ground watch them fall hear the sound of n  
o sound at all  
But the sound of my heart breaking in two you said forever here  
's to forever and you  
You said forever here's to forever and you
