

## Sometime Sunshine

Jim Ed Brown

She opens my door and crosses the floor and touches my cheek  
She's startin' the storm her fingers are warm the feelings are  
deep

She's my sometime sunshine when she turns her good love on me  
She's my sometimes in her time of need

She's needin' me more than ever before by the mood she is in  
She's turned out the light it's that time of night to be more t  
han friends

She's my sometime sunshine...

I light up a smoke she begins to stroke her hair with my comb  
She'll need me again I wish I knew when I hated alone  
She's my sometime sunshine...
