

Understand Little Man

Jim Ed Brown

Well if you're thinkin' that maybe you can steal my baby
Let me give you some advice just free
You better not start to roamin' round my pretty woman
Unless you wanna tangle with me
By way you're a lookin' I can tell you're cookin' up
Somethin's gonna get you hurt
And that cash you're flashin' gonna buy you trouble
I'm gonna see you get your money's worth
Little man understand she's mine

You better not take chances with anymore glances
Get the leavin' while the leavin's good
I got enough of contra-notion that I'd change your notion
Leave 'em up brother where you stood
Now I don't mean maybe you keep foolin' with my baby
I'm gonna see you if I can stretch your neck
And when you need a friend instead of askin' how you been
He's gonna ask you where you had your wreck
Little man understand she's mine

By way you're a lookin' I can tell you're cookin' up
Somethin's gonna get you hurt
And that cash you're flashin' gonna buy you trouble
I'm gonna see you get your money's worth
Now I don't mean maybe you keep foolin' with my baby
I'm gonna see you if I can stretch your neck
And when you need a friend instead of askin' how you been
He's gonna ask you where you had your wreck
Little man understand she's mine
