

Adios Amigo

Jim Reeves

3/4

Adios amigo, adios my friend
The road we have travelled
Has come to an end
When two love the same Love
One love has to lose
And it's you who she longs for
It's you she will choose.

Adios compadre, what must be must be
Remember to name one muchacho for me
I ride to the Rio,
Where my life I will spend,
Adios amigo, adios my friend.

Adios compadre, let us shed no tears
May all your mañanas
Bring joy through the years
Away from these memories,
My life I must spend
Adios amigo, adios my friend.
