

# I Won't Forget You

Jim Reeves

I won't forget you.

I know that I won't forget you  
For I've loved you too much for too long  
Though you don't want me now  
I'll still love you  
'til the breath in my body has gone

That's how it is with me  
And you'll always be  
The only love I ever knew  
I'll forget many things in my life time  
But my darling I won't forget you

That's how it is with me  
And you'll always be  
The only love I ever knew  
I'll forget many things in my life time  
But my darling I won't forget you.
