

# Let Me Love You Just a Little

Jim Reeves

Just because the moon is bright's  
No sign he's watchin' us tonight  
Let me hold your hand  
Maybe love you just a little

The moon just went behind a cloud  
And I won't whisper very loud  
Let me whisper in your ear  
Maybe love you just a little

Some folks talk agin' romance  
And say we shouldn't do it  
Don't ya pay no 'tention to what they say  
You know there ain't nothin' to it.

Love's what makes the world go 'round  
And you're the roundest thing I've found  
Let me hold your hand  
Maybe love you just a little
