

## One Dozen Roses

Jim Reeves

Give me one dozen roses  
Put my heart in beside them  
Send them to the one I love

She'll be glad to receive them  
And I know she'll believe them  
There's something we've been talking of

There may be orange blossoms later  
I think that there will  
She's done something to me  
And my heart won't keep still

Give me one dozen roses  
Put my heart in beside them  
Send them to the one I love

There may be orange blossoms later  
I think that there will  
'cause she's done something to me  
And my heart just won't keep still

Give me one dozen roses  
Put my heart in beside them  
Send them to the one I love  
Send them to the one I  
Send them to the one I love
