

# Overnight

Jim Reeves

(Overnight, Overnight, Overnight, Overnight, Overnight)

I met you on the Sunday night by that Monday morning  
Overnight although I wondered  
Overnight what's wrong with me  
Overnight love walked right in and shook me like a tree.

Oh, I sat down when I got home and gave my heart a warnin'  
Overnight I dreamed about you  
Overnight while count the sheep  
Overnight I felt for you so hard I couldn't sleep.

All night long I wished you were my own  
And when I came to I was huggin' you like a hound dog hugs a bone  
All night long my heart was standing still  
And when I got up I pitched myself to see if this was real.

Then you came by and told me dear the same sweet Monday morning  
Overnight you dreamed about me  
Overnight you loved me too  
Overnight we found the dream that really did come true.

(All night long I wished you were my own)  
When I came to I was huggin' you like a hound dog hugs a bone  
All night long my heart was standing still  
And when I got up I pitched myself to see if this was real.

Then you came by and told me dear the same sweet Monday morning  
Overnight you dreamed about me  
Overnight you loved me too  
Overnight we found the dream that really did come true.

Really did come true, that really did come true...
