

# Down

Jimi Blue

This ist the aftershow party  
DJ turn up the sound  
All the ladies gettin' dirrty  
Like Christina - get down!  
They're all up in my grill  
Like I'm the talk of the town  
I cast an eye on you, girl  
With you I wanna get down

The sky's the limit baby  
Can't you see  
Just let yourself go  
Put your trust in me  
I wanna take you to a higher ground  
But I can't reach you  
If you don't go down

Down, down  
Deep in your heart  
Tear down the walls that surround you  
Down, down  
Let yourself fall  
Straight into my arms

This is going deep  
Like bass and beat  
Punchin in your solar plexus  
Let me check this thing between you and me  
listen:  
girl, I'm diggin your dance.  
Wait a minute, wait a minute - Stop!  
You say "Giddy up, man!"  
Sky's the limit, can u feel it? Woouw!

The sky's the limit baby  
Can't you see  
Just let yourself go  
Put your trust in me  
I wanna take you to a higher ground  
But I can't reach you  
If you don't go down

Down, down  
Deep in your heart  
Tear down the walls that surround you  
Down, down  
Let yourself fall  
Straight into my arms

Might we walk the sam line  
Finally we can meet eye to eye  
Babygirl, take me to a higher ground  
With you I wanna get down

Down, down  
Let yourself fall  
Straight into my arms

Down, down  
Deep in your heart  
Tear down the walls that surround you  
Down, down  
Let yourself fall  
Straight into my arms

Down, down  
Deep in your heart  
Tear down the walls that surround you  
Down, down  
Let yourself fall  
Straight into my arms
