

Party In The City

Jimi Blue

Its friday night an i'm down chilling with my crew
Its kinda boring - now let me tell you what we do

The night is young and we're desperate for fun
I order a cap - and now were on the run

All the guys and the girls are coming out its time to play
Check it out, check it out we're gonna dance the night away
Here we go, here we go everybody's chasing city in our sights
Shake it out, shake it out we've got the city in our sights

Don't let me down tere's a party in the city
Friady night there's a party in the city
Don't let me down tere's a party in the city
Catch a ride com on down

Everything is possible tonight is our night
Girls, party, action - yeah this is what we like
Riding our skateboards and joking around
Checking out the girls - yeah I know you feel me now..
So

So you're coming down?
Yeah I'm coming down.
You're gonna last all night?
Yeah I'll last all night
So your're coming down?
