

# School's Out

Jimi Blue

A new start  
A new life  
School's out

The year is over now and school was fine  
Teacher's favourite every class I used to spit my rhymes  
The world is mine what you want me to do  
See me acting in the movie is this Jimi Blue  
No more math all I do is shine  
My range from A to A plus I'm just one of a kind  
I be on fire now come here and press play  
Droppin' by to show me love be part of my way

Step into the future  
Take my chances  
School's out  
Life is just a venture  
I will make it  
School's out  
Feelin' free and easy  
On my way cause  
School's out  
Come let's join the party  
Celebrate it  
School's out - uuh - yeah  
Back in buisness  
School's out

My song is all about to blow your mind  
Turn it up I burn it down cause this is my prime time  
The next episode of Mister Blue  
Call my player, young big time I'm gonna twist the truth  
Back in school I used to be a wild boy  
Now young enough but grown up I don't need no more toys  
I am right here standing on my own two feet  
On the way to touch the sky to give you what you need
