

Reunion

Jimmie Dale Gilmore

It's today you say you're leaving, darlin'
Time comes when you must follow your own star
And though my silly mind is sick with fear
In my heart I know that these differences just go to show
How much the same we are

Someday we'll build a new home
Up in the canyon by the falls
Splashing water our companion
Under shooting stars
And when Mother Earth and Father Time
Reunite us one more time
We'll remember that we've never been apart

So step on out into the big world
Where all your dreams are waiting to come through
The first time we touched I felt a love so real, so much
That I knew I'd never say goodbye to you

Someday we'll build a new home
Up in the canyon by the falls
Splashing water our companion
Under shooting stars
And when Mother Earth and Father Time
Reunite us one more time
We'll remember that we've never been apart

Yes, we'll remember that we've never been apart
