

## Attention

Jimmy Barnes

We don't seem to talk much anymore  
It's getting to hard to egnore  
Silence taken place of the words before

If I'd only payed attention  
If I'd only heard the call  
Even with my good intentions  
And somehow I still let you fall

Maybe now you'll have to face the truth  
Well the writings there for the world to see  
We could be strangers starting out a new

If you'd only payed attention  
Instead of waitin' for the past  
We had it all in our posetion  
Still we didn't make it last

Maybe we could wash it all away  
Just like foot prints in the sand  
If we could only start it all again  
Find a way to understand

Could have been with me baby

If we'd only paid attention  
There was truth between the lies  
We were trying to find perfection  
Instead of leaving love behind

Nothings gonna last for ever  
Let's just never start  
We couldn't save too stormy weather  
Stealing time to touch the sun

And if we'd only payed attention  
If we'd only payed attention  
If only  
If only  
If only only only  
If we only payed attention  
Sometimes I wonder what would happen  
If we payed attention
